## How do I figure out which car is right for me?

There are plenty of car rental options to choose from depending on your needs. Consider where you're travelling, how many people are travelling and the style of driving you intend to do. You can use the ACRIS system detailed above to find the car that suits your needs. This is an internationally recognised code that will ensure that you get the same standard of vehicle wherever you rent.

## Automatic and Manual Transmissions

Automatic and manual vehicles are available in the UK, though automatic may be more expensive and suppliers may have fewer available.

## Do I need a credit card?

Yes. A credit card will be needed for a deposit when collecting your vehicle. The deposit is generally the insurance excess of the rental car which can vary between \$385 and \$3,500 (+tax) depending on the category of vehicle you have booked and the rate type.

## Collecting at an airport in the UK

At most British airports, rental companies will have a desk in the arrivals hall and vehicles will be located within walking distance. However, at smaller airports you may be required to collect your vehicle from a downtown depot. Usually a courtesy transfer will be provided from the airport to the depot in this instance. Auto Europe New Zealand offer all-inclusive prices which generally include any location/airport fees that may otherwise apply. Remember to check at time of booking to ensure your rental will include all airport fees.

## Can I collect my vehicle in one British city and drop it off in another?

Yes, this is certainly possible. In most cases, there are no fees for one way rentals within mainland UK, but in some cases there may be a one-way fee payable when you collect your rental. Check with Auto Europe New Zealand and your supplier before you travel to enquire about additional costs.

# Rental Vehicle Insurance

## Rental Vehicle Insurance

British law requires all vehicles to have Compulsory Third Party (CTP) insurance, although your car rental supplier should already have comprehensive insurance covering their vehicles. In the case of an accident, it must be reported to the insurance provider immediately and an excess will be due.

Car Rental Companies in the United Kingdom will normally include:

- **Third Party Insurance and Compulsory Insurance:** This will be included in your car hire price. This covers other people's injury and any damage to their vehicle.
- **Collision Damage Waiver (CDW):** This limits your financial liability for damage to the rented vehicle and is normally included in prepaid car hire prices. Rentals are usually subject to liability excess, which can be reduced at the time you collect your rental car or by taking out **Auto Europe Excess Refund Insurance**.
- **Theft and Loss Cover:** This limits your financial liability for the loss or theft of the rented vehicle and is generally included in the prepaid car rental price.
- **Liability Insurance:** This limits your financial liability for bodily injury or death, and is normally included in the prepaid car hire price.
- **Personal Accident Insurance:** This covers the driver for personal injuries and is generally not included in your car rental rate. It is considered an optional extra that you can take out upon collection of the car.

## Auto Europe Excess Refund Insurance

When renting a vehicle, the rental rates include basic insurance. However, in the event that the vehicle is stolen or accidentally damaged, there is usually an insurance excess amount which the driver is liable to pay to the rental company. To avoid any unexpected costs opt for Auto Europe Excess Refund Insurance which will offer a reimbursement for the supplier's damage and theft excess to a maximum for AU\$5,000. Simply add this onto your car rental booking prior to departure and you could save thousands of dollars in case of an accident. To find out more, simply call Auto Europe on 0800 885 052 or visit the [Auto Europe website](#).

The Auto Europe Hire Car Excess Refund Insurance is managed by Accident & Health International Underwriting Pty Limited, ABN 26 053 335 952, AFSL 238261 and underwritten by CGU Insurance Limited, ABN 27 004 478 371, AFSL 238291.

# Driving in the UK

## Driving Laws in the United Kingdom

- Cars drive on the **left** hand side of the road and the driver sits on the right.
- Familiarise yourself with your rental car and its controls before you leave the depot.
- Observe the speed limits. Speed cameras, hand held devices and portable speed detection devices are used by patrolling police to catch speeding drivers. Hefty fines are issued for excessive speed.
- The maximum blood alcohol level is 0.08% and DUI drivers can face hefty fines or imprisonment. Be smart, don't drink and drive.
- Drivers are permitted to execute a U-turn or a 3 point turn on any UK road unless it's expressly forbidden.
- When driving on rural roads, be patient. You may get stuck behind a slow moving vehicle, but it is dangerous to attempt to overtake on narrow winding roads. Make use of the *lay-bys*, where one driver can move to the side of the road and give way to oncoming traffic.
- Keep your headlights on during the day, especially on country roads and in foggy or misty conditions.
- Unless otherwise indicated, the speed limits in the United Kingdom are:
  - Built up areas: 30mph
  - Country roads: 40-50mph
  - Single Carriageways: 60mph
  - Dual Carriageways: 70mph
  - Motorways: 70mph
- The driver and all passengers must wear a seat belt at all times.
- Child Safety: Children must be properly secured in an appropriate Child Safety Seat:
  - \* Up to 13kgs (birth to 9-12months): Rear-facing baby seat.
  - \* 9-18kgs (9 months to 4 yrs): Forward facing child seat.
  - \* 15-25kgs (4-6yrs) or 15kgs and up: Forward facing child seat or booster seats.
  - \* 22-36kgs (6yrs and up): Forward facing child seat or booster cushions.
  - \* Up to 11 years and under 135cm: children must be seated in a child seat booster cushion or seat.
  - \* 12 years up: a seat belt must be worn.
- It is illegal to talk on a mobile phone while driving in the UK.
- Motorcyclists must wear a helmet.
- Park only where it's permitted. Check to see if there are parking meters where you will have to "pay and display" the parking receipt on the dashboard of your car. Otherwise you run the risk of heavy fines and clamping in major cities.

# Driving in the UK

## Parking

In major cities, parking zones are differentiated by coloured zones.

- **Blue Zones:** short term (1 to 1½ hours)
- **Green Zones:** longer periods (2 to 4 hours)
- **Red Zones:** parking not permitted at any time.

After 6pm and when parking restrictions have been lifted, you can park on streets with a single yellow line. You cannot park on streets with double yellow lines.

There are various types of free and paid parking options within the UK. In the larger cities, parking can be costly and for limited periods of time.

## Min & Max Age Requirements

**Min Driving Age:** Usually 21, however in some regions the minimum age is 25.

**Young Driver Surcharge:** Drivers aged 21-22 years may be charged from £15+tax per day, drivers aged 23-24 years may be charged from £11+tax per day.

**Max Driving Age:** The majority of locations in the UK do not have a maximum driving age, however there may be restrictions for drivers aged 70-75 in some regions. In certain situations, aged drivers may be required to hold a letter from their GP stating they are healthy and fit to drive. Check with the supplier for further details.

## Licence Requirements

A full driving licence is required to drive in the UK. All drivers must have held a full valid driving licence for a minimum of one year. New Zealand residents are not required by law to have an international drivers licence, although it is recommended since an international licence holds more credibility with the local traffic police than your home driving licence. Contact your local motoring association for further information.

## Cross Border Fees and One Way Rentals

### Travelling between England, Scotland and Wales:

There are no additional fees to travel between England, Scotland and Wales. One way rentals will not incur an international one way fee and travel to islands such as Isle of Man, Isle of White, Shetland Islands and Orkney Island is allowed with no additional charge. Travel to the Channel Islands will sometimes incur an additional fee. One way rentals to islands are generally not permitted. Some suppliers will not allow travel off the islands if picking up on the island. Check with Auto Europe New Zealand upon booking for further information.

### One Way Car Rentals:

There may be additional charges to collect from one city and drop off in another, depending on the supplier. Most suppliers will not charge a one way fee if a vehicle is dropped off at another location in the UK. Some companies will not permit international one way rentals from the Republic of Ireland to Northern Ireland. Before you book, find out any other additional fees that might be charged by the supplier. Remember that you may not be covered by insurance if you travel to another country without the car rental company's permission.

# FAQ & UK Regions

## I'd like to visit Ireland on my holiday and return my car to the UK. Is this possible?

This is possible. Most car rental companies will permit travel to Northern Ireland with little or no fee, however travel to the Republic of Ireland may incur an additional fee. Check with Auto Europe for further details.

## Can I collect my car rental in mainland UK and drop it off in the Republic of Ireland?

Not all suppliers will permit international one ways from mainland UK to the Republic of Ireland. It is permitted through some suppliers, though a substantial one way fee will apply. The specific fee will depend on the car rental supplier. Check with Auto Europe New Zealand when you book your car hire.

## Should I take out additional insurance on my car rental?

Rental rates will include basic insurance: Collision Damage Waiver (CDW), Third Party Liability and Theft Protection. In the event that your rental vehicle is accidentally damaged —regardless of who is at fault— or stolen, the insurance excess is the maximum for which you are liable.

## Should I hire a GPS for driving in the United Kingdom?

GPS units can also be requested direct with some suppliers and this will be at their own rates.

## What do I do if I want to extend my car rental whilst I'm in the United Kingdom?

Once the car rental has commenced you will have to call the depot where you initially collected the vehicle. If the car is available to be extended, you will be offered additional days at the local rate.

# Stay Healthy & Stay Safe

## Stay Healthy

Your comprehensive travel insurance will cover any medical costs including medical evacuation, but you should make sure that your insurance covers you for the entire duration of your trip and be clear on what is not included. In case of an emergency, go to your nearest hospital for treatment. The New Zealand Government has a reciprocal health care agreement with the Government of the United Kingdom that gives New Zealand residents access to free emergency medical services, but does not provide for any ongoing treatment of existing health conditions. For non-urgent ailments, go to the local medical centre or NHS walk in centre where you will be billed for the treatment.

Plan for the continuing care of pre-existing conditions before you leave. Bring your medications in their original and clearly labelled containers with a declaration from your doctor describing your medical conditions and medicine needed. Pharmacies and chemists carry most prescriptions, however it can be expensive, so it's best to have your prescriptions filled before you go. Carry these medicines and a letter from your GP explaining your medical conditions.

## Stay Safe

Travelling in the UK is not dangerous, but a level of caution should always be taken when touring in any foreign country. The majority of crimes tend to occur in the larger cities where tourists can be targeted for petty crimes. The best advice is to keep your valuables close to your body and out of reach from potential thieves, avoid lonely streets out of hours and don't flash your wealth and make yourself an obvious target.

Car break-ins, theft, smash and grab and vandalism on tourists vehicles can occur, but can generally be prevented by keeping valuables or bags out of sight, securely locking cars or using off-street supervised parking. In the unlikely event of theft or loss, be sure to inform all your credit card companies as soon as you discover your wallet has been lost or stolen. Most credit card companies have toll free numbers to call if your cards are lost or stolen, and they may be able to issue an emergency replacement card or wire you a cash advance.

## Emergency
